## RUGOSA AND HYBRID RUGOSA ROSES

These Hybrid Rugosa Roses are a valuable race, having size, quality, fragrance and constant blooming habit along with exceptional hardiness. While their beauty and attractiveness commends them for planting everywhere, they are especially valuable for localities like the north-west where the climate is too severe for most varieties of the H. P. and H. T. classes.

Dwarf Apples are rapidly growing in favor. They come into fruiting early and their compact, low-down habit makes them desirable for door yards where there would not be room for standard trees. Also they can be more easily kept free from scale because the growth is all within reach of ordinary spraying apparatus.

This list is intended for the trade only, and the prices given will be applied only when the quantities required are such as to entitle the purchaser to wholesale rates.

This list is intended for the trade only, and the prices given will be applied only when the quantities required are such as to entitle the purchaser to wholesale rates.

## FOR NURSERY PLANTING

ENGLISH-GROWN MANETTI, 5-9 m-m grade.....	\$12.00 per 1000
3-5 m-m grade.....	10.00 per 1000

These prices are for the stocks here at Newark with duty and all importing expenses paid. Further, they are unpacked and regraded here, throwing out all that are not sound, well-rooted and fit for use. The shrinkage—and there is always some—is eliminated by US and our customers get stocks that are all fit to use.

APPLE SEEDLINGS, Topeka-Kansas-grown, from our own contract blocks,

No. 1 grade, 3/16 inch and all up, straight roots .....	\$6.00 per 1000
No. 2 grade, 2/16 to 3/16 inch, straight roots.....	2.50 per 1000
No. 2 grade, 2/16 to 3/16 inch, Branched roots.....	2.50 per 1000
Grafters (will make one to two grafts).....	1.50 per 1000
No. 3 grade.....	.80 per 1000

Prices are taken here at Newark,—or shipments can be made direct from Topeka if preferred.

A FEW SHRUBS, our own propagation, strong stock samples on request,

2500 Forsythia Intermedia.....	\$15.00 per 1000
1375 Lonicera Billardi Alba (Upright Honeysuckle, white).....	17.50 per 1000
550 Rosa Rubrifolia (red foliage) seedlings.....	12.50 per 1000

ROSES, FROM 2½ INCH POTS, for nursery planting or mailing.

We grow large quantities of Roses, both for planting out in our own nurseries and to sell to other nurserymen. They are well-established plants that give good stands in the nursery rows, and make strong growth. List of varieties and quotations furnished on application.

## OF INTEREST TO FLORISTS

HYDRANGEAS, (Hortensis sorts), pot-grown. The new French Varieties.

We produced a magnificent lot of these last summer. They were grown in 6 inch pots plunged out-of-doors under slat houses. We shipped out fully 25000 last fall with scarcely a single instance of dissatisfaction upon them. We still have moderate quantities to offer in all the leading sorts and have somewhat reduced the prices to close them out.

### FROM 6 INCH POTS

300 Mme. Emil Moulliere, with 7-10 branches.....	\$25.00 per 100
1000 Radiant, with 5-6 branches.....	20.00 per 100
650 LaLorraine } with 4 branches.....	15.00 per 100
1000 Radiant }	

Roses. New York, Nov. 11, 1915.—“Received in good condition. Am well pleased with same.”

Roses. Pennsylvania, Oct. 16, 1915.—“Were unpacked in bang-up good condition.”

Roses. Virginia, Nov. 6, 1915.—“Your Roses have arrived. We want to say they are splendid and the best Roses on Manetti we have ever seen, here or abroad. Thank you very much for sending us such fine stock.”

Roses. New York, Dec. 10, 1915.—“O. K. and very satisfactory.”

We cannot undertake to supply long and much assorted list of stock calling for only small quantities of each kind, save at an advance above our printed rates according to quantity.

## IN ROCHESTER, N. Y.

BY an arrangement with one of our Rochester customers, we are offering the following stock for their account and for shipment by them directly to the purchaser. The stock is Rochester grown and carefully graded. Because orders for small quantities could not be economically handled in this way, we ask that they call for not less than 25 of a variety and grade.
